

RESERVE MY HURRICANE RELIEF HEAT PUMP REBATE

This form must be completed and submitted to Tideland EMC no later than 4/30/2019 which is the expiration date of the original Hurricane Relief Heat Pump Rebate program. This form is only intended for the co-op member that was the owner of the Hurricane Florence damaged property on September 22, 2018. Reserved rebates are not transferrable to subsequent owners of the affected property. All Tideland EMC rebates are subject to funds availability and are limited to one rebate per member household annually. Standalone mini-split heat pumps are not eligible for the rebate (such as a single mini-split installation in a sunroom or room over garage). Mini-split units that are installed as part of a whole house conditioning system, in lieu of a central HVAC system, do qualify for the rebate. Gas packs and standalone air conditioning systems do not qualify for the rebate program.

This form, upon receipt, will be retained by Tideland EMC in the co-op member's account files. Once the co-op has determined that adequate funds exist to extend the Hurricane Relief Rebate Program past the original 4/30/2019 deadline, we will mail the member an updated rebate form which will establish a new deadline for rebate submission.

All heat pump rebates require the submission of a Manual J Calculation which is the HVAC installer's responsibility to complete. Be sure to request that calculation before work begins.

Please Note: We will be glad to conduct a free energy audit for you prior to installation if you would like our professional opinion prior to initiating an HVAC purchase agreement. To schedule an audit call 1-800-637-1079.
